Case study of an Impact Day

History project

JL puts a pack together of various bit of information and the students bring their own stories from their homework. The format could be posters, project: whatever is thought to be appropriate. The main thing is that they get an idea of where they come from and what their stories are (individual and community).

Questions that could be asked to trigger discussions about the 'I Am Everyone' advert

- Can you think of a person who is special to you?
- What are the qualities that make a person special?
- What has the person done that they are proud of?
- Has anyone had a negative impact on your life?
- Are there similarities and differences between the stories?

Need the transcript for the adverts.

Again, it could be a song, drama video: whatever the tutor and group choose.

'Hope and Dreams' sheet

- What are my hopes and dreams for the future?
- Do any of us have the same hopes and dreams?
- Are there some hopes and dreams that really matter to everyone?
- Are there some dreams that are only important to the individual?
