

## Module Overview

Module Introduction	Approach to Learning	Overall Module Objectives	Possible Book Resource
<p>The purpose of these lessons is to develop discussion around the concepts of identity, diversity, uniqueness and belonging through exploration of The Linking Network's four key questions: <b>Who am I? Who are we? Where do we live?</b> and <b>How do we all live together?</b></p> <p>This set of lessons is just one way of exploring these questions.</p>	<p>Understanding of your class and community, sensitivity and awareness are essential before exploring activities relating to identity.</p> <p>Always begin activities by modelling and sharing information about your own identity. This will help children to be much more open and confident when sharing information about themselves. However, always recognise that some children may be uncomfortable or may not be able to share some things.</p> <p>Ground rules for class talk should already be well established.</p> <p>Success criteria throughout module: Listening, Thinking, Sharing Ideas and Asking Questions.</p>	<ul style="list-style-type: none"> <li>To develop skills which help pupils in forming good interpersonal relationships that promote personal wellbeing and are sustained through a positive sense of personal identity, as well as respect for similarities and differences.</li> <li>To develop confidence and recognise self-worth as individuals through the exploration of identity.</li> <li>To discuss issues of stereotyping and prejudice.</li> <li>To discuss identity and diversity openly and sensitively and think critically about what students hear during discussions.</li> <li>To encourage reflective thinking and deeper conversations.</li> </ul>	<p><i>Skin Again</i> by Bell Hooks</p>

#### The National Curriculum in England: KS3 and KS4 Framework Document

##### Spoken language

**6.2** Pupils should be taught to speak clearly and convey ideas confidently using Standard English. They should learn to justify ideas with reasons; ask questions to check understanding; develop vocabulary and build knowledge; negotiate; evaluate and build on the ideas of others, and select the appropriate register for effective communication. They should be taught to give well-structured descriptions and explanations and develop their understanding through speculating, hypothesising and exploring ideas. This will enable them to clarify their thinking as well as organise their ideas for writing.

**KS3 English:** Pupils should be taught to:

- speak confidently and effectively, including through:
  - using standard English confidently in a range of formal and informal contexts, including classroom discussion;

- giving short speeches and presentations, expressing their own ideas and keeping to the point;
- participating in formal debates and structured discussions, summarising and/or building on what has been said.
- write accurately, fluently, effectively and at length for pleasure and information through:
  - summarising and organising material, and supporting ideas and arguments with any necessary factual detail.

##### Citizenship:

- Students are equipped with the skills to think critically and debate political questions, to enable them to manage their money on a day-to-day basis, and plan for future financial needs.

##### SMSC

This pack covers many aspects of SMSC: the session plans will show which sections are covered in each session.
