

What did people do that was helpful?

Quotes from interviews with KS2 pupils who had arrived new to a school

“When I first came into the room people asked for me to sit next to them and that made me feel extremely happy.”

“When someone told me to go to club I went and I enjoyed finding friends there.”

“We can be friendly, playing with them, making sure they know our names and ask them what their name is.”

“Try to help the new person, show them the things they need to use, smile, and smile every time not just the first time.”

Have you made someone feel welcome? What did you do?
