

# Love our Neighbours

Whilst thinking about 'caring for our neighbours and communities' we have thought about how we all live together. There are three challenges, maybe you might want to try one.

## Share:

If you have made something, perhaps for your window, could you make one for your neighbour too?

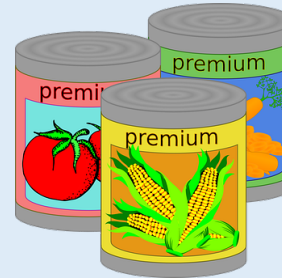

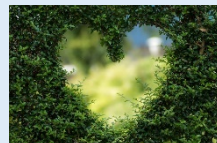

## Advertise:

Show your love for your neighbours and community and those that live nearby by making a 'welcome poster' You could add words and messages that people who are passing your home can see, it might make them smile.

## Give:

Show your love for your community by giving something. You can give your time by asking if people you know need any help or by perhaps giving something from your shopping to a food bank.

*(Always ask an adult if you can have a go at any of our suggestions.)*

Just use things you would recycle, such as different coloured cardboard packaging, along with felt pens, paints or crayons. Something simple but with a special message.
