

Windowsill Shadow Art

This activity is easy to set up and lots of fun. You will need:

- ◇ A sunny day
- ◇ A windowsill
- ◇ A piece of paper
- ◇ A pencil, pen or crayon
- ◇ A toy/object to cast a shadow

Put your piece of paper on the windowsill and place your toy or object on top of it.

Move your toy around until it casts the shadow that you think looks the most interesting.

Draw around the shadow.

You can build up scenes by combining different objects together.

CHALLENGE

Some objects cast shadows that are quick and easy to draw. Why not set yourself a challenge to choose an object that is a little trickier to get right, like the reindeer?

Why not take photos of your artwork and share them with friends and family?
