
When We Started Singing

Lyric Sheet

Til now we've been but strangers
we've not known much about
each other and our stories
It's time to let them out

They'll flow down every path
like streams to join a river
and there they'll find each other
and grow into a sea

The sound will start to swell
and soon became a wave
that'll brake upon the silence
and set our voices free

**Then we'll start the singing
and somehow understand
that all our voices ringing out could rival any band**

**When we start the singing
suddenly we'll see
this song is our song for our community**

Take a breath and be brave
Take a moment to say hello
For the gift that you gave
Is the promise to never feel alone

We know a smile
Can brighten the darkest day
If you're feeling lost we'll find a way
Our friendship's here to stay

**When we started singing
we understood
that all our voices ringing out together felt so good**

**When we started singing
we suddenly could see
this song is our song for our community**

**When we started singing
we understood
that all our voices ringing out together felt so good**

(WE STARTED SINGING)
(WE UNDERSTOOD)
(OUR VOICES RINGING)
(SO GOOD)

**When we started singing
we suddenly could see
this song is our song for our community
this song is our song for our community
this song is our song for our community**

(WE STARTED SINGING)
(WE COULD SEE THAT)
(THIS IS OUR SONG FOR OUR COMMUNITY)
(THIS IS OUR SONG FOR OUR COMMUNITY)
(THIS IS OUR SONG FOR OUR COMMUNITY)
